

Nei-Li Junior High School

There is a wonderful school—Nei-Li Junior High School. There are about 3000 students in Nei-Li Junior High School. The students can learn happily and behave well on campus. There are many great teachers teaching us thoughtfully. And we also have excellent sports teams.

Nei-Li Junior High School's archery team is excellent. "Practice makes perfect" is a good saying for our archery team. They represent us to attend many competitions and often win many awards. I often see they practice all afternoon and they play hard. Can you imagine how hard they play for their efforts?

My teacher is not like any other teacher in our school. She teaches us Civics. She teaches a lot of Civics but not only content in textbooks. She encourages us to know. We spend a lot of time in studying the subject. She tells us many stories happening in the society. We have a lot of fun in her class, and we also learn a lot from her teaching. I believe all of her 801 students agree she is the best Civics teacher.

All in all, because of the excellent teams and great teachers. I think Nei-Li Junior High School is the best school. Do you agree it with me?

My Favorite Teacher

My favorite teacher is a Chinese teacher who taught me last year , but now she doesn't teach me any more.

She let me like to study Chinese .Not only me but also my classmates .When she was teaching in our class everyone listened to her carefully because it is a important subject to everyone . We like her because she is young , pretty and friendly.So everyone like to chat to her.

She taught the seventh grade students before.Now she still teach the seventh grade , but I'm in the eighth grade . I envy my lower classmate who learned Chinese from her because she is the best Chinese teacher I have ever meet.

Ne Li junior high school

My junior high school's name is "Ne Li." It located in Zhong Li city. It's really a nice place. The teachers here may make you strong. And they also give you a stage to show yourself. Last year, I enjoyed here very much. I have to thank for all teachers of my school. Because of them, I had a good time here. I still wish Ne Li could be as great as now forever.

My favorite place

I love NeiLi junior high school. There are many great teachers. They teach me many interesting things, and help me a lot. And I also have many funny and good classmates. We often study and play together. Our school has many beautiful flowers and big trees. When the weather is too hot, we can talk and play under the trees.

In the school, I'm so happy. But in my class, I sometimes get angry easily. Because my classmates are so naughty and noisy, so I can't be conscientious about my lessons. Although so, but I still feel happy with them.

I love NeiLi junior high school. Everything here is so interesting and exciting! Here is my favorite place. And I want to learn more and more things from here!

My family

There are four people in my family. My father works in the factory as a painter , and my mother is a housewife . She always stays in the house watching TV and playing online games . My sister, Mary, is a student . She is also a babysitter . She enjoys playing with kids . I am a student, too . But I am not a babysitter because I want to be a teacher in the future!

I love my family, even though my parents nag at me all the time . But I know that's because they love me . They work very hard outside! So, I need to work much harder on my studies at school. This is the only thing I can do for them !

More Than School

The student in Taiwan compete with each other fiercely. They got a big pressure from their schoolwork, but if you are a student, remember, you can still have other things to do, such as developing an interest or a hobby and playing sports to keep healthy.

Doing exercise of sport you enjoy can relax yourself. Besides, it is good for your health and it can relieve your nervousness. It's really a god way for you to build your body.

If you don't like sports, listening to music might be a good interest. Also, singing is a good way. Here is a smart tip. When you are upset, nervous, angry or frustrated, just roar out loudly. It is really a good venting channel.

All these above show us that studying isn't the only thing we have to do. To be a complete citizen in the future, besides studying, developing social skills, playing sports or fostering hobbies are all the things you can make your life more colorful.

The Scenery Of School

I am a student in Nei-Li junior high school. My school is large, and we always have a lot of fun there. Now, I am in eighth grade, and I start to touch with more and more things. I want to enjoy carefully in the beautiful school.

Our school has many great places. My favorite place of school is "Playground". My school playground is big enough, so that we can do lots of sports there. When we have PE classes, we always expect to play in this large playground. Because we are free there, and we can have our own spaces there. And, there are many benches around the playground. I often sit there and talk to my friends.

The playground not only play games, but also let us relieve pressure. We are students, and we learn many kind of useful things from teachers. We have lots of stress. After relieve pressure, we are more concentrate on our study. And then, we have better performance. I love our campus and I hope everyone can like it.

The wonderful school of Nei Li

Today, was a beautiful day. The sun shinning upon my face, the birds twittering on the trees. Yes, today was the first day of year eight. Summer vacation had pass by like a train on full speed, and the heat was rising to thirty degrees. It was hot, but I had fun. I attend Nei Li junior high, which has a beautiful playground ,and a lot of green trees. Of course you can't left behind those beautiful flowers which the gardener grows and waters everyday during the afternoon.

I was looking forward to seeing my friends because since the start of summer vacation, we hadn't had a chance to speak to each other , and that doesn't include summer school. Well, since we're now year eight, we can't stay in the same classroom that we were in last year can't we? So our new classroom is on the second floor of the new building(which I had much trouble finding).

Nei Li junior high compared to other schools, you might say it's a great school for learning. I think it's wonderful too. The teachers here are all very enthusiastic and kind, and the principal is always smiling at the students as though the sun is always shinning.

In the past few years, I've learned that Nei Li junior high is just an ordinary lame school, but is a wonderful and beautiful school filled with joy. I like Nei Li junior high very much, and I hope you'd like it here too!

The Life in Junior High School

As a student, most of my time is spent on school work and other school-related activities. To be an ideal student, we should study hard in order to increase our knowledge. Besides acquiring knowledge we also need to develop a good character. We must obey the school rules, listen to our teachers and cooperate with our classmates.

It is also very important to develop good hobbies. Good hobbies can help us to do many things well. In addition, they help us relax and give us an opportunity to make friends with others. My favorite hobby is playing basketball. I started playing when I was in elementary school. I began playing it because all the other boys in my classmate enjoyed it. Now I play basketball twice a week. It is good for me both physically and mentally. I really love basketball.

Having a good hobby makes my life meaningful and interesting. By being able to take time to relax, I am not so worried about my studies.

I look back on the last year I spent in Nei-Li junior high school as the happiest year of my life. I had more friends, learned more, and became wiser than during other period of my life.

My Junior High School

When I was a freshman, it's my first time to this beautiful school. Immediately, I noticed this big campus. In the front garden, they grow many trees, between the trees, there's shade grass, there stood two goats statues, what a beautiful garden!

Walking through a long hallway, I saw that all the classrooms were clean, and it made me have a good mood.

As I walked by the buildings, a pretty pebble path caught my eyes, among the pebbles, there are some mushrooms, they were so cute!

In the garden, you can see many butterflies and bees flying, and some birds are singing. Unconsciously, arrive to the backyard, you can find a stone tablet, on this stone tablet are the words, "Hope, Happy and Healthy!". Our principal hopes every student can have

Nei-li junior high school

My class,824,is very interesting. There are 35 people in my class. Everyone is kind, energetic,but sometimes too noisy.

I like my school life because there are many activities in it. For example, an athletic meet, a fun fair ,and a outdoor trip. I like the fun fair the best . In the last fun fair, my classmates and I sold a lot of delicious food and drinks. We not only made much money but also had a great fun.

I have a lot of classes a day. I like English and music very much. In the English class,I study hard and listen to the teacher carafully. In the music class, I can take it easy and sing many popular songs. So I feel my school is happy and rich.

The beautiful school

Nei Li junior high school is beautiful. The plants are beautiful there, the students are friendly here, and the teachers are all earnest about teaching. Some teachers like to tell us some jokes and stories, some teachers like to sing for us, and some teachers always make us laugh. There are many different teachers in the school, and the students love them very much.

I was in seventh grades. I learned many things last year. When I came to school, I learned how to met classmates, how to familiar with the school, and I learned many new subjects. I 'm in eighth grades now. The school is still beautiful. I meet many new teachers this semester. They are kind and they teach really well. I love my teachers and I love my school.

The school let us learn many things. The teachers are work hard, and they always take care of us. The school is really good. And the environment is beautiful. I love it a lot.

內中之美

I study in Neli Junior School. It is a beautiful school. When you step into our school, you can see many green trees in your sight. Sometimes I feel tired in my eyes, I will take a walk around there. If I have enough time, I can sit on the branch next to the playground and talk to friends. It is a good place for students or teachers to take a rest.

In the middle of the school, there is a big garden. I really like to walk on the stone path. I think it is a special place. Or maybe we can sit under the trees in summer. It is quite cool to sitting down under them. At the back door, it is dangerous there because there is a parking lot. It is really big. And it just finished building last year. Some people who walk through the back door, will see big colorful walls outside our school. I think it is a good out-looking.

Not only the scenery, there are many other things beautiful in our campus. Like the art performance in the art classroom, or the good poems and books in the library...I think it has good environments for us to study well and have fun here.

My Favorite Subject

Among all the subjects,I like P.E. most.It is because it can strengthen my body and let me get into shape.Speaking of the sports,my favorite is basketball.As it is a sport that I can keep my friendship with my partners.It is believed that a playing basketball makes people get taller but there was nothing happening when I have been trying my best to play it.Although it upsets me very much,it does change my mind to not to play basketball at all.

I like my P.E. teacher due to his kind heart and you can ask him many questions about P.E.He is good at a lot of sports,such as,basketball,football,tennis,and jump rope.I'm glad that he is my P.E. teacher and he is my super idol.That is why I like P.E.

Our Schoolyard

Nei—Li junior high school is a beautiful school.You can see different scenery in different seasons.

In spring,the leaves begin to burgeon and become green.Every flower grow beautifully.If you are lucky,you'll see the squirrels play in the tree happily.I think you'll lost yourself in the beautiful and freshness of this early spring morning.In summer,school is a blaze of colours.The birds sing in the trees and jump between the branches happily.In the morning,you also can see the beautiful sunshine between the trees.In autumn,the leaves change into yellow,orange and red.And some leaves are falling.It looks like a beautiful picture.In winter,cherry blossoms are in full bloom.When you see these cherry blossoms,you'll forget all your vexation.

A beautiful schoolyard is important,because it can make us feel easy when we are tired.So we have to keep the schoolyard clean.

My School

I am in my third grade in Neli junior high school . It is a very nice learning environment for us. There are many tall trees and beautiful flowers in the campus. Every morning we can hear the birds singing in the tree and see the flowers blooming when we study in the classroom. We can also take a walk in the campus as we feel tired. And there is a big playground in our school. We can do some exercise in it. For example, We can always see students playing basketball, running, playing soccer and playing volleyball etc.

I enjoy my studying at school because teachers are earnest. They not only teach us useful knowledge but also make us grow up happily. I want to say “ thank you” to all the teachers in Neli junior high school.

My school is just like my house. It makes me feel warm and comfortable. I will study harder in the future. Finally, I want to say Neli junior high school is the best school in my heart.

曾子恩

My best friend.

Everybody in the world needs friends. Having a friend can not only share secrets to each other but also give us a lot of courage. Friendship is really an important thing to us!

I also have an indispensable friend. She has a sincere heart, a cute face, and a big warm smile. I like her smile very much. She smiles all the time. Sometimes she laughs, the laughter is also dulcet.

We usually teach each other math or science questions in the school. We both think they are the most difficult subjects. Our favorite hobby is watching movies! A movie can be amusing, frightening or touching. We enjoy all the parts of the movie. Sharing the feelings with the roles is also interesting. We can imagine we are in the story, it can help us add a lot of fun. Be with her, I'll never be boring; Be with her, I can do a lot of exciting things. I really like her!

I hope our friendship will be firm like now. I believe we can be friends forever. It's our promise. And I also believe we'll have a wonderful future if we work hard.

The Beautiful School

There are many trees and beautiful flowers around here. This is my school , Neili junior high school. In the morning ,while you walk into my school. You can see some trees near the door .and some cute dogs play under the tree.The trees are green ,the sky is blue and the air is fresh. You can enjoy the quiet atmosphere , then It can relax you .

In the evening ,the sun is shining. The weather is hot. Some students are playing basketball on the playground and Some students are studying in their classroom. You can see the bustling scenes in everywhere.

In the afternoon, It becomes dark gradually. Every students are busy to go to cram school or waiting for their parents. Some students have to stay in school for ninth class. The whole school is dark and serene , it just like a scaring movie .

In different time,there are different scenes in my school. They give us different feelings.However We have to love our school more and let it keep clean all the time.

My school

I have a great class , I like the class because not only students but also teachers are kind to everyone .

My classmates are energetic . They are not shy ; they are good at show . And I like them . They are funny and wise .

Teachers are busy with their work . They are hard - working , so there are many excellent teachers in my school . I want to learn a lot from them .

It is helpful to me . I love my class and school . Although I will graduate , I hope to keep in touch with my teachers and classmates forever .

My School Life in Neili Junior

I study in Neili junior high school. Three years ago, when I first came to Neili, I was so scared and nervous. But all the teachers were so kind to us; and also, I made many good friends soon. We played and studied together.

Now, I'm a student of third grade. Though we have the pressure of preparing the coming BC Test, I like to talk with my friends during the break time. We like to talk about something interesting, like movies, our idols, computer games and of course, pretty girls. On the weekend, if we have free time, we also like to go shopping together. During PE class, boys like to play basketball together during the break or after school. And we also play soccer or play volleyball .we have much fun in PE class. I also like music class. I like to listen to music, especially soundtracks of movies. Recently, our teacher let us see the movie Titanic. I'm so touched not only by the plot but also by the music.

We are now in the third grade. Everybody in my class is busy preparing for the coming BC test. After school, I go to the library with my best friend. We not only study together but also encourage each other. Now, we both try our best to study because we want to get into our ideal senior high school. I hope our dream will come true next year.

This is my last year in Neili junior high school, I'd like to make good use of every moment here in school. Thanks to my teachers and all of my classmates for giving me so many memories, no matter sweet or sour. Though I haven't left school, I start to mi

Neili Junior High School

Though I stayed in Neili junior high school only for two years,I had a lot of memories here.I met many friends,I was scold by teachers,I watched a few good movies in some classes,etc.I have a lot of fun studying in Neili junior high school.I believe there will be more interesting things this year.There are many tall trees and green plants in our campus.Some of the buildings in our school are new.Most of the teachers are kind and considerate.All of the students are energetic!I am thankful that I can study in Neili junior high school!

My Beautiful School

Neu Li Junior High School is a beautiful place, perhaps it is this most beautiful place nearby.

When you step into the campus, you will see to a small garden, in the garden is a sign of WELCOME, there is also standing a windmill, they are very lovely. Walk into the building, you will see the neat arrangement. The middle aisle also has place to obstructs the rain. Nearby the beautiful garden and the classroom, there is a long wood footpath between the classroom and the garden. Sometimes we walk there, and look at the flowers and trees, the mood will relax soon.

When you passed through the middle corridor, you can see many kinds of flowers, under the big trees are the wood chairs, and there also is the stone footpath and the lawn. On the lawn is white staircase that goes to the second floor, theres a library, the books in it are so many, outside it are the tables and chairs of cafe style. Go straight andturn around, on the balcony we can see front door's beautiful scenery, no matter from which classroom, the scenery and white window's matching can be a picture, when you look outside, the mood also will be relaxed, the breeze blows gently, its time to go home.

Walk to the campus door and look at the sky, setting sun slightly turns red, the clouds are likes the rainbow, our school is really beautiful.

Friends

When I first came to Nei-Li junior high school , I didn't like this place at all . I thought my teachers were boring and my classmates were too noisy . I had no friends here , so sometimes I felt lonely . I missed my life in elementary school very much .

Once , one of my classmates helped me clean the windows . I was touched . I gave her a big smile . She was so surprised . “ I have never seen your smile before . ” she said . Suddenly , I knew something . No one pushed me out from the group except myself . I started to make new friends from then on . Little by little , I had a lot of friends . They are all kind to me . Now , let me introduce some of my best friends .

My best friend in our class called “ Mushroom ”. She's good at drawing . Her paintings are so beautiful that even some people want to buy them . She also writes a few stories in her free time . They're interesting . Polar Bear is a girl with long hair . She helps me a lot . When I feel sad , she always cheers me up . What a sweet girl she is ! And don't forget Grandma ! She is not really old , but she's just like the grandmother of our class . Though her grades are poor , she plays basketball well . She never gives up anything easily . I honor her . As for me , they call me “ Phantasm ”because I always appear quietly behind them . They are shocked by me easily . Because of my friends , I am happy every day . I also love my school more and more . I'm thankful of them .

After this year , we will all graduate . I hope our friendships will be forever . Friends are important to us .

Neili Junior High School and I

I'm study in Neili Junior High School. When I see the school first time, I know it's a great school.

There are many trees and flowers in the campus. And we can also see some squirrels hide in the trees and many beautiful butterflies fly around flowers. We can see them because the environment in school is really beautiful and clean. I think our school isn't just a school, it also like a park or a garden.

I like to do exercise on the broad playground to keep my health and to be stronger. There is a library in school. I often borrow many books from there and enlarge my views by reading.

I learn a lot from Neili Junior High School. And I'm happy at here all the time. In the days to come, I'm going to leave the school. I won't forget the school making all for me. I'll remember it forever because I love the school so much.

The 46th anniversary

This year is our school 46th anniversary, everybody celebrates for the event. Each class designs their own poster to make the school colorful. Teachers are busy for activities arrangement. After many years and many previous principals' farming, we have nice school buildings and more joyful study environment. And also positively built up the beautiful campus, fine green beautification. All of our teachers devoted to good influence of education, our school also wins many outstanding scores, like art, physics and chemistry section exhibition, sports, compositionetc. To accomplish our vision "Health,Happy, Hope."

Under extremely hot weather, the school celebration begins. All classes go to playground for the opening. First, our principal introduces the guests, then makes a speech. Sometimes the speech is very long. Exciting contest soon starts. The first program is the interest competition, then the racing, the high jump, the long jump ... and so on, a lot of activities. Time runs very quick, it is time for lunch, but everybody cannot eat up, because in the afternoon we have more splendid activities. The tug-of-war and the relay race are the programs which I love most . These two contests all need the team work and understanding. I see everybody in tug-of-war shouting the slogan, the competition is stimulating loudly. Finally is the relay race, everyone cheers for their classmates, all wish strives for the glory for the class.

The school anniversary ends completely. Today we play happily .This is the unforgettable recollection. Finally, wishing the school "Happy Birthday."

The excitement of sport meet

“Boom!” When the gun shot, the players will do their best to win the games. When the champions stand on the stage, all the people will cheer for them. The honor that is hard for them to describe when they are praised. They are proud that they are the winners.

However, who could know the hard time they have been through behind the success. To win the prize, they need to constantly practice every day. Though it's easier for them to fall or hurt, they insist to make it better. Whether losing or winning, they will not give up. This is what we call “sportsmanship” and it's also the purpose people hold the sport meet.
